Đoàn Thanh Minh

Python Developer

Professional Summary

Senior Python Backend Developer with **6+ years of experience** building scalable web platforms, automation systems, and enterprise backend services.

Strong expertise in **Python, FastAPI, Django, microservices architecture, and RESTful API design**, with hands-on experience in **high-volume systems, automation workflows, and cloud deployments**.

Experienced working with **SQL Server, PostgreSQL, MySQL, MongoDB, Redis**, and modern frontend stacks including **ReactJS, AngularJS, HTML5, CSS3, and JavaScript**.

Proven ability to design **high-performance backend services, asynchronous processing pipelines, and containerized microservices** using **Docker and cloud platforms (AWS, Azure)**.

Recently focused on **AI-assisted development and automation**, integrating **LLM-powered tools (OpenAI APIs)** and AI coding assistants to improve development efficiency and system intelligence.

Seeking a challenging role where I can **design scalable backend systems and contribute to complex engineering projects**.

Technical SkillsBackend

Python, FastAPI, Django, RESTful API, Microservices Architecture

Databases

SQL Server, PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps

Docker, Kubernetes, AWS, Azure, CI/CD (GitHub Actions, Azure DevOps)

Frontend

ReactJS, AngularJS, HTML5, CSS3, JavaScript

Messaging & Background Processing

Celery, Task Queues, Async Processing

AI & Automation

OpenAI APIs, AI-assisted development, Prompt Engineering

Tools

- Git, Docker, Postman, Linux, Windows Server

Profiles

0964307998

Work experience

German Software Intelligence | 2/2025 - Present

Date of birth: 17/10/1992

doanthanhminhk55@gmail.com

12 Street 904, Hiep Phu Ward, Thu Duc City, Ho Chi Minh City, Vietnam

Skills

English

Computer

Honors & Awards

University of Transport _ Ho Chi Minh City

Major: Information TechnologyJuly 2014 - March 2019

Python Backend Developer

Python Backend Developer (FastAPI / Django)

- Designed and developed backend services using **FastAPI and Django** for BIM data processing and validation systems.
- Built **Python automation services** to transform and synchronize BIM model data with backend databases.
- Developed **API-driven tools** for automated drawing generation and parametric object management.
- Integrated **Python backend services with C++ modules** to expose performance-critical computations through REST APIs.
- Implemented **rule engine systems (ChaiScript / Python rules)** enabling dynamic execution of configurable business logic.
- Collaborated with CNOI teams to extend **Allplan infrastructure modeling capabilities** through custom backend services.
-

Saigoncenterreal | 7/2023 - 2/2025

Python Backend Developer | FastAPI / Django

Jul 2023 – Jul 2024

- Developed **automation services and background workers** for scheduled jobs and API integrations (CRM, payment gateways).
- Implemented **asynchronous processing pipelines using Celery** to handle high-volume backend workloads.
- Designed RESTful APIs supporting **real estate management platforms and mobile applications (Flutter clients)**.
- Built database schemas using **Django ORM / SQLAlchemy with PostgreSQL and SQL Server**.
- Implemented **CI/CD pipelines using GitHub Actions and Azure DevOps**.
- Deployed backend services using **Docker and cloud platforms (Azure / AWS / GCP)**.

StepMedia | 7/2021 - 7/2023

Python Backend Developer (Enterprise Auditing Platform)

Developed backend services for a **commercial auditing platform used by international clients including Deloitte**.
Built **RESTful APIs using FastAPI and Django** supporting large-scale audit workflows.
Implemented core auditing features:

- audit checklist management
- risk scoring and analysis
- evidence file uploads
- KPI dashboards and analytics APIs

Optimized database queries and asynchronous processing to handle **large audit datasets**.

- Built **automated test suites (unit and integration tests)** to ensure system reliability.

SouthTelecom Company | 11/2018 - 7/2021

Python Backend Developer | High-Volume Messaging Platform (FastAPI / Django)

Designed and developed a **high-volume SMS messaging platform** using FastAPI and Django.

Built backend services supporting:

- SMS scheduling and automation
- real-time delivery status tracking
- campaign analytics and reporting

Integrated multiple **SMS gateway providers via REST APIs**.

Implemented **Celery-based background processing** for batch messaging jobs.

Built microservices handling **large file processing and data validation**.

- Optimized SQL Server queries for large-scale datasets.
